

Tavy, Walkham and Plym Fishing Club

River Walkham Beat 2 Merrivale - Ward Bridge 3.1 K

The beat may be fished by full members, associate members and ticket holders at any time during the fishing seasons.

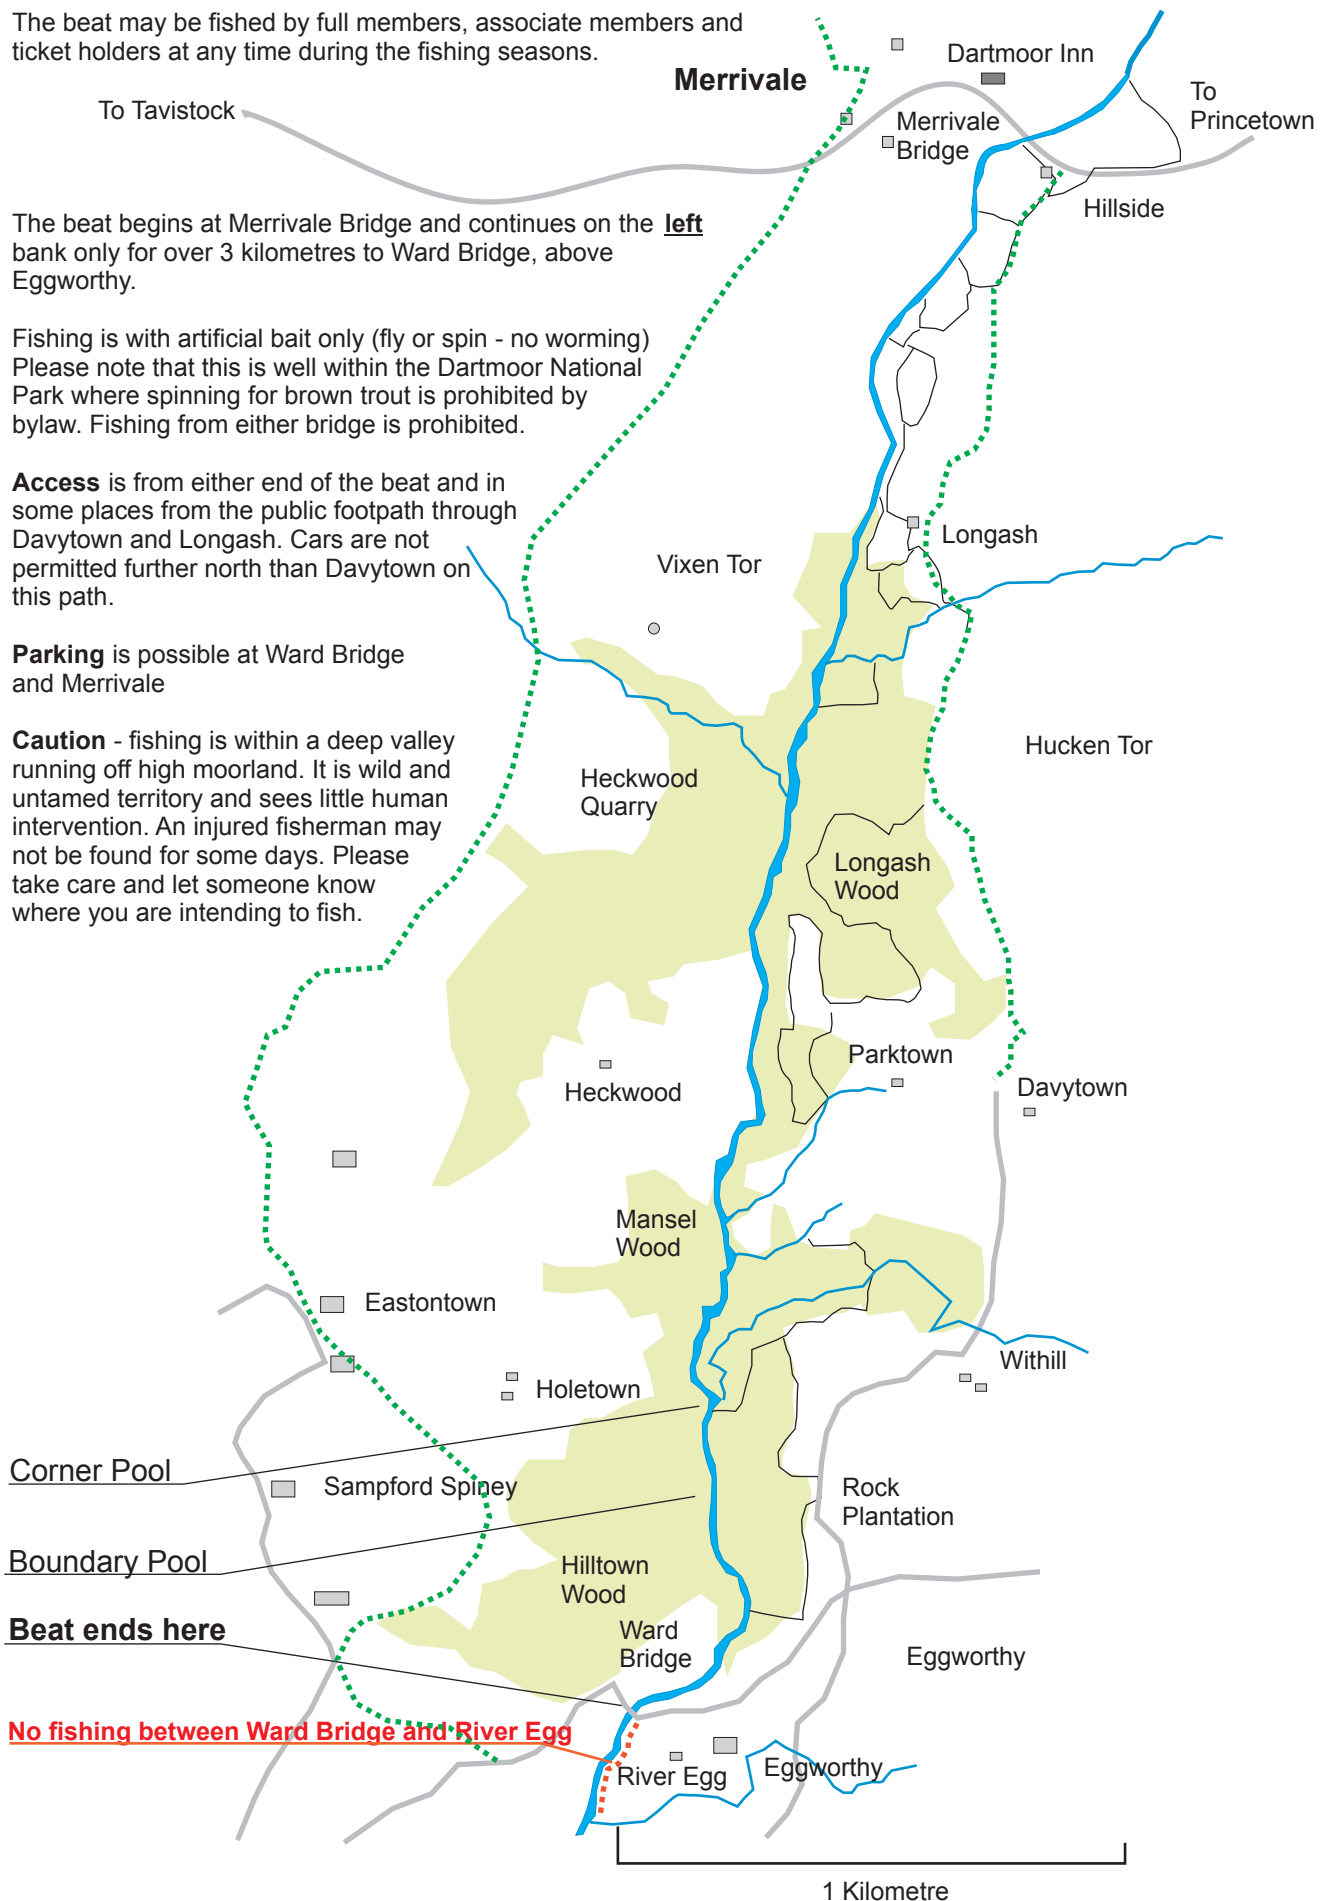

The beat begins at Merrivale Bridge and continues on the **left** bank only for over 3 kilometres to Ward Bridge, above Eggworthy.

Fishing is with artificial bait only (fly or spin - no worming)
Please note that this is well within the Dartmoor National Park where spinning for brown trout is prohibited by bylaw. Fishing from either bridge is prohibited.

Access is from either end of the beat and in some places from the public footpath through Davytown and Longash. Cars are not permitted further north than Davytown on this path.

Parking is possible at Ward Bridge and Merrivale

Caution - fishing is within a deep valley running off high moorland. It is wild and untamed territory and sees little human intervention. An injured fisherman may not be found for some days. Please take care and let someone know where you are intending to fish.
